

SEBO AIRBELT D4 Premium

The AIRBELT D4 Premium is a powerful, full-size, ultra-quiet, canister vacuum cleaner with three on-board attachments, a giant 1.5-gallon bag, an unmatched 40-foot cord and 52-foot cleaning radius, protective rubber-coated wheels, a durable telescopic tube with quick-release connections, and a full bag or clog indicator. It also features excellent filtration, and a one-of-a-kind LED indicator that enables suction power to be optically monitored. A unique tapered suction hose with a 320° rotating canister connection increases airflow velocity, minimizes clogs, improves maneuverability, and its soft-foam bumper protects the vacuum, furniture, and walls from scuffs and scratches.

The D4's commercial-quality ET-1 power head cleans both carpets and hard floors, has excellent pet hair removal, offers manual brush roller shut off, and the extension side of its L-shaped contour makes cleaning under counters easy. A parquet brush for cleaning hard floors with straight suction is also included. The ET-1 has a 3.5-inch horizontal cleaning profile, tool-free brush roller removal, and automatic shut off due to brush roller obstructions. The D4's suction adjustment switch is located on its ergonomically designed handle, which also provides users effortless control of the power head's 180° steering ability.

AIRBELT D4
Premium
Black
with ET-1 and
Parquet Brush
#90640AM

Flat-to-the-floor, 3.5-inch Profile – A low, cleaning-head profile makes reaching under furniture and beds easy!

Three Full-size, On-board Tools – A crevice nozzle, an upholstery nozzle, and a dusting brush are integrated into the canister body, so they are on-board and ready for use at all times. Also, many optional attachments are available.

Full-size Canister Vacuum – The D4 is a full-size canister vacuum that offers a giant filter bag and an extra-long power cord.

Unmatched, 40-foot Cord and 52-foot Operating Range – Its cleaning radius is amazing! Large areas can be cleaned without changing electrical outlets. Plus, the seven-foot suction hose provides superb user and machine maneuverability.

Premium
White
with ET-1 and
Parquet Brush
#90641AM

Control-switch Cord Rewinder – Its super-long power cord rewinds by simply pressing a button.

Full Bag or Clog Indicator – When a full bag, clog, or excessively dirty microfilter is detected, an indicator window turns orange, which warns the user of inadequate airflow to cool the motor. If this condition persists, its thermal cut-off switch will shut down the motor after a short duration of time.

Durable, Rotating, Suction-hose Connection – A brilliantly designed hose-to-canister connection allows 320° rotation of the suction hose, providing easier user movement and machine maneuverability.

LED Suction-power Indicator – This technology actually makes it possible for the user to optically monitor the vacuum's suction power. When using lower power settings, the LED light rotates slowly. When using higher power settings, the light rotates more quickly. When the power is set to standby mode, the light slowly blinks back and forth, left to right.

Patented AIRBELT Bumper – The soft, textile-covered, foam bumper protects furniture, walls, and the vacuum itself from incurring scratches and scuffs during use. The bumper also diffuses exhaust air, which contributes to its ultra-quiet performance.

Four Rubber-coated Castor-wheels, Mounted on Bearings and Steel Axles –

The rubber-coated castor-wheels glide easily and gently over all floor types, providing exceptional maneuverability and protection of floor surfaces.

Convenient Parking and Storage Aids –

After the work is done, the suction hose and telescopic tube, with parquet brush or combination nozzle, can be firmly stored on the canister's underside (shown) or backside housing.

Giant, 1.5-gallon Filter Bag – The large filter bag is convenient and economical because fewer bag changes are needed, and closing its built-in hygiene cap prevents dust from escaping during bag disposal.

Three-step, Hospital-grade Filtration – It features a pre-motor filter, a three-layer Ultra Bag, an S-class exhaust microfilter, and a tightly-sealed casing, which prevents dirty air from escaping through its seams.

Durable Power Head with Manual Height Adjustment, Amazing Steering Ability, and Manual Brush Shut Off –

The D4 comes standard with the commercial-grade ET-1 power head, which is 12 inches wide, cleans both carpets and hard floors, easily removes pet hair, and offers four-level, manual brush height adjustment. To clean delicate rugs and hard floors with straight suction, the brush roller can be manually switched off. Its 180° steering ability provides amazing maneuverability.

Easy Brush Roller Removal, User Warning Lights, and Automatic Obstruction Shut Off – The ET-1 has easy, tool-free brush roller removal, a handy clog removal door, and a red warning light, with automatic shut off, for brush roller obstructions. Also, its warning light remains illuminated during use, when brush height is set too high for optimal cleaning, or when the brush roller should be replaced due to bristle wear.

Suction Adjustment Switch on Handle – The D4's suction power can be adjusted on the hose handle, so upholstery can be cleaned with stronger suction, yet curtains can be gently vacuumed as well.
